

PRODIGY ENTERTAINMENT

Fall 2010 Preview Catalog

DJs, Audio, Video, Lighting, Special Effects, and More!

We are one of the premier suppliers of special event production services based in Southern California.

About Us

Since its inception in 2005, Prodigy Entertainment has become one of the most sought after providers of audio, video, lighting, and special effects services in Southern California.

Founded by true musicians at heart, we pride ourselves on the ability to provide a professional service with a hip and modern twist. Our experienced and courteous staff strive to go above and beyond the expectations of each and every client. Whether you're looking to rent just a few accent lights or produce a full stadium concert, Prodigy technicians are here to help with every aspect of your event. Let us take some of the worry off your shoulders.

Feel free to give us a call for a free quote, no obligations, or just to chat. We like that too.

Who We Serve

Prodigy DJs and technicians have worked alongside the likes of Daft Punk, DJ AM, Black Eyed Peas, LMFAO, M.I.A, Kid Cudi, MSTRKRFT, and Steve Aoki to name just a few. We specialize in nightclub and university-level audiences which have brought together a diverse portfolio of clients.

Closer to home, we can be regularly spotted at special events across colleges in California. Some of our most recent clients have included USC, UCLA, UC Santa Barbara, UC San Diego, Chapman University, Concordia, and UC Irvine.

We are also proud to continue the support we have provided for the important causes benefiting the American Cancer Society, American Red Cross, Habitat for Humanity, and many more.

Audio and DJ

Prodigy DJs are some of the most sought after party rockers in the Southern California region. Our DJs arrive at every event with up-to-date music and video libraries of the latest and hottest tracks and remixes.

With years of experience on the microphone, our MC's can help you make announcements throughout the event and energize the crowd to keep 'em dancing all night long!

Superior Sound

True audiophiles at heart, we know the importance of a crisp, clear, yet bold sound system. Accordingly, we only carry top of the line brand names in audio like DBX, Crown, JBL, and Shure. Each and every Prodigy event is guaranteed to have ample sound reinforcement to get the job done... and done right.

No more crackling speakers and garbled microphones during your presentation or party. Make the switch to Prodigy today and really HEAR the difference.

Event Lighting

Prodigy's lighting designers are some of the most experienced in the industry. Each technician is well versed in the newest LED technologies as well as more conventional theatrical lighting systems.

We carry full lines of lighting control desks, software, moving yoke fixtures, uplights, dimmers, control cables, and much more. Whether you're looking to place lights in your backyard for a BBQ or light up an entire arena for a concert or rave, we have the gear and the knowledge to make the event really shine.

Finding it difficult to imagine what your special event will look like? Prior to your event, Prodigy staff will happily create realistic 3-D models of your event space, lights, and floor plan.

Custom Design Effects

Laser effects are some of the most requested additions we offer. We carry lasers that can even write words in the sky and really bring home that feel of a music video or electronic rave!

Your name in lights! A custom monogram (or anything really!) is an awesome way to customize your lighting. We can help you to design your image and project it onto practically any surface at your event.

Uplighting can turn any room from drab to fab. Most popular at cocktails, dinners, or receptions, uplights can be customized to your color scheme or gradually mix throughout the night as well.

Video Services

Video effects can help bring that extra “wow” factor to any event. Our DJs can mix live music videos alongside their audio performances to create a very visual and exciting dance floor. In addition to music videos, video systems can display custom designed event graphics, live-camera feed, slideshows, movies, or even custom ambient visualizations.

Visually Exhilarating Media

Mixing music videos brings forward a previously untapped market of the nightclub experience. Dancers and bar-goers can now watch the artist created music videos while they enjoy the party.

Just as the audio is remixed and transitioned between tracks, music videos are cut, faded, edited, and mixed seamlessly between one another to create unique blends of media. Spice things up with some truly creative use of movie clips, video game samples, and even pop culture youtube streams... the result is nightclub entertainment like never before!

Of course with the addition of video systems in any event, we open the door to a vast array of possibilities. Prodigy staff is trained in video production from the ground up. We can shoot high definition footage of your event to present on plasma displays or projection screens. After capturing these priceless moments, we can edit them into custom DVDs and websites for you and your guests to view.

Our graphic designers are also some of the best around. By creating custom event graphics and media for all our video events, Prodigy video packages are customized exactly to your event's theme and ambiance.

PRODIGY ENTERTAINMENT

Special additions to really set your event apart from the rest.

When you sit down to plan your next party, rest assured that we offer many services above and beyond those of a standard DJ or production group. Additions like those below can really make a successful event stand out and be noticed. For a complete listing of all the services we offer, be sure to visit our website. These are some of our most popular package additions.

Photobooths

Bring a photobooth to your event! Our booths are very elegant with a clean finish and black and red velvet drapes. Print-outs are always unlimited and free to your guests. We can even customize each print-out with your event's logo. Cool booth additions include a DVD of all the images at the end of the night or a hand-made scrapbook delivered right to your door!

Dynamic LED Staging

Many of our stages have opaque surfaces which can be illuminated to change colors to the beat of the music! With assorted heights, our platforms are versatile yet very safe. Whether you're just adding a few units or trying to create your own performance theatre, we have the right decks to make it happen!

Confetti and Streamer Effects

Confetti and streamers can add to the "wow" effect when it's time to announce a winner, close out the night, or even celebrate a surprise birthday! We can customize confetti blasts to your event's color scheme and even carry special rice-paper so cleaning outdoors is a piece of cake... just hose down the paper and it disappears!

Foam Parties

Foam parties are a huge hit among university-level crowds. Our foam machines are among the highest output in the industry and the foam itself is generated from non-toxic, non-staining, and hypo-allergenic solutions. We have inflatable foam pits ranging in size from 10x10ft to 30x30ft. The large pits can easily fit 200+ people inside!

Karaoke Systems

A favorite at almost any show, our comprehensive karaoke database has some of the greatest oldies and classic tracks as well as everything that's hot and current to date! With capability for multiple microphones and lyric screens, you and your friends can sing the night away.

CO2 Blast Jets

Carbon dioxide jets have been used for years in concerts and sports arenas... but now they can be the highlight of your party! Amazing columns of air can cool off a crowd in seconds and are always a real crowd pleaser.
